

Brief Summaries of Permanent Injunctions and Internet Defamation: Recent Case Law

1. **Mina Mar Group Inc. v. Divine, 2011 ONSC 1172.** Defamation of corporate & personal plaintiffs on Internet by non-Canadian defendants. Beginning in 2006 and continuing to decision date, by profuse postings on Internet bulletin boards and websites, particularly the website of InvestorsHub.com Inc., the Defendants, James Divine and Catherine Divine have frequently defamed Mino Mar and Mr. Zecevic. The Defendants' postings describe the plaintiffs as thieves, crooks, sham artists, liars, dishonest, corrupt, incompetent, and immoral. Default judgment. **Permanent injunction granted.**
2. **Henderson v. Pearlman, 2009 CanLII 43641 (ON SC).** The defendants defamed plaintiff through a program of misinformation on various websites, internet newsgroups and internet fora, which they purposely and maliciously targeted to spread in Ontario, where the plaintiff resides. The plaintiff further alleges that they have vouched for the truth of the defamatory comments appearing on their sites by providing links to each other's sites. In so doing, the plaintiff asserts that the defendants have collectively acted in concert to defame him. Default or non-appearance by defendants. Defendants were non-Canadian. **Permanent injunction granted.**
3. **Hunter Dickinson Inc. v. Butler, 2010 BCSC 939.** The defendant had published, and continued to publish, on a publicly-accessible internet website statements such as that the plaintiff is a crook and a thief. Defendant ignored request to cease publication and did not appear in court. "Where the defendant has continued to assert the truth of his or her defamatory allegations and continues to publish them, the court may infer there is more than a reasonable possibility that the defendant will repeat the defamation." **Permanent injunction granted.**
4. **WeGo Kayaking Ltd. et al v. Sewid et al, 2006 BCSC 334.** Defendants defamed the corporate plaintiff on Internet review web site. The Internet service provider agreed to remove the impugned material should an injunction be granted. Defendants did not appear at hearing. **Permanent injunction granted.**
5. **Warman v. Grosvenor, 2008 CanLII 57728 (ON SC).** Default judgement and deemed admission of facts Alberta defendant. Internet publication of defamatory statements about plaintiff, including anti-Semitic remarks and threats. **Permanent injunction granted.**
6. **Barrick Gold Corp. v. Lopehandia, 2004 CanLII 12938 (ON CA).** Default judgment. Series of defamatory publications about corporate plaintiff, damaging its goodwill in its home province. Non-local defendant. **Permanent Injunction granted by Court of Appeal.**
7. **Astley v. Verdun, 2011 ONSC 3651.** Campaign of defamation against plaintiff. Judged guilty by jury. Likelihood of continued defamation in future. **Permanent injunction granted.**
8. **National Bank of Canada c. Weir, 2010 QCCS 402.** Internet defamation. Nova Scotia defendant, Quebec plaintiff. Court considered **Barrick Gold, supra**. **Permanent injunction granted.**
9. **Cragg v. Stephens, 2010 BCSC 1177.** Defamatory email campaign against plaintiff. Allegations of improper and criminal behaviour. Defamation continued after filing Statement of Claim. Default judgment. Likelihood of continued defamation. Court considered that "The Court also granted a permanent injunction because the defendant continued to assert the truth of her allegations, persisted in publishing defamatory statements respecting some of the plaintiffs, and there was no real hope that the plaintiffs would be able to recover their damages from the defendant." **Permanent injunction granted.**

10. **Griffin v. Sullivan, 2008 BCSC 827** . Canadian defendant; Australian plaintiff. Internet defamation. “[119] Notwithstanding Mr. Sullivan’s strenuous opposition to this claim, in my opinion a permanent injunction is not only justified but required in this case. In light of his conduct over the past three and one-half years, it cannot be assumed that Mr. Sullivan will cease all efforts to publish new defamatory material or re-publish old defamatory material, about Mr. Griffin. Nor can Mr. Sullivan be trusted to make every possible effort to remove defamatory material about the plaintiff which he is responsible for publishing, and which still remains on the internet by his own admission.[120] In my view, the wording of the injunction must be very broad, having regard to Mr. Sullivan’s propensity for using many different identities, nick names and internet addresses.” **Permanent injunction granted.**
11. **Daboll v. DeMarco, 2011 ONSC 1**. Internet defamation of an attorney. “Now that I have found the defendants’ statements to be defamatory, and in light of the defendants’ conduct in continuing to publish these statements, I have no hesitation in granting a permanent injunction. Plaintiff’s counsel has provided ample authority to do so, including cases brought under simplified procedure (see *Warman v. Grosvenor, supra* at paras. 90-92; *Griffin v. Sullivan*, [2009] B.C.W.L.D. 265 at paras. 121-124 (S.C.); *Keryluk v. Lamarche*, [2006] O.J. No. 5215 at para. 40 (Sup. Ct.), aff’d [2008] O.J. No. 1388 (C.A.)).” **Permanent injunction granted.**
12. **Ottawa-Carleton District School Board v. Scharf, 2007 CanLII 31571 (ON SC)**. Internet defamation. No apology from defendant. **Permanent injunction granted.**

It's never "the crime" but the coverup that often lands people in hot water. The powers that be hung reporter Rich Rainey out to dry on his reports on Trout Point Lodge. Were those reports libelous and did they defame Charles Leary and the merry group of guys he hangs with? Or is the saber-rattling out of Team Trout Point an attempt to cover some dirty secret?

Here is a hint that comes from multiple sources that know these men. Abel, Leary, Perett, Gates and Paulsen share something in common. In fact by all appearances Aaron Broussard would appear to be the piece of that social puzzle that does not fit. Or does he? I'm thinking he does.

by sop81_1

I'd submit this was a miscalculation of gargantuan proportions for several reasons, which will become clear as I roll out this series of posts on Aaron Broussard's connections to Trout Point Lodge and its purported owners, Charles Leary, Danny Abel and Vaughn Perret. I say purported because others were sold 2% ownership interests in the Trout Point development as touted by Broussard and those folks are the bagholders in this deal.

"purported owners," stating that plaintiffs are the face of a criminal enterprise, "bag holders"

In researching this story what I have found is a pattern of Leary, Abel and the girls being first class bitches and I think it is safe to assume based upon the retractions they made the Times Picayune and its corporate parent their bitch in this fiasco because Rainey was onto something big, albeit a bit dated in the fleecing of several local individuals that were marketed and sold ownership in the Trout Point by Aaron Broussard, who had close personal and business ties to Abel, Leary and the girls.

Leary, Perret and Abel were trying to use the Canadian Libel laws to strong-arm the Picayune and their parent Advance Publications. Now perhaps Advance does not keep up with changes in Canadian Libel laws or maybe the fact that Leary and the girls advertised in sister company Conde Nast Johanses guide swung the corporate decision toward retracting a factual news story but whatever the calculus Leary and the gang thought they buried the story.

"So who are the investors in Trout Point and what did they invest in? Why is this important? Maybe because of the government assistance Leary, Abel and Perret received in Canada via the

4

Atlantic Canada Opportunities Agency. That assistance, **in the form of a “repayable contribution”** is the current subject of litigation in Nova Scotia and one of the major sticking points in discovery was the disclosure of the names of the owners.”

Lies about any active litigation between the plaintiffs and ACOA. Misrepresents the proceeding.

the fact Abel’s name evidently appeared on the paperwork to get the loan Leary was insistent Abel was not involved and the gyrations are simply stunning as we continue from the court opinion:

Implies that Dr. Leary lied and mislead.

Obviously there is a huge problem here – that of a liar or in this case a perjurer keeping his lies straight. Now maybe there was a bust pipe that took out vital records and maybe someone took time to drive to the middle of nowhere to steal the safe from a resort that was obviously not doing well financially. But Abel losing his records to Hurricane Katrina? Really Charles?

The judge did not appreciate Leary’s arguments either and must have laughed him out of court. I say that because Leary evidently pulled out all the stops in the courtroom but the judge did not buy into the “they are picking on me because I’m a gay American” meme:”

Calls Dr. Leary a liar again and again misrepresents the facts of the proceeding to hold Leary in worst possible light.

This was important enough for Leary to **appeal to the Supreme Court of Nova Scotia** but he did not find much relief there either.

So to this point we are left with more questions than answers such as:

How many 2% owners were sold an interest in the Trout Point development by Aaron Broussard?

What did Broussard get in return for promoting a resort in Nova Scotia purportedly owned by 3 gay men, one of whom was his former Parish Council Aid?

Who are the owners of the Trout Point development and why did the latest partnership dissolve?

I’ll attempt to answer these questions and more as we travel from Nova Scotia to Costa Rica in part 2.

More innuendo implying fraud, gay “secret lives,” and misrepresentation of public records. Stalking and harassment.

Yes I can verify the girls are quite the litigious bunch!

To call Abel, Perret, & Leary litigious is defamatory; two of the three are lawyers.

Here are two oldies but goodies to go along with the Eric Paulsen lawsuit against State Farm. First up is Perret v Phillip Morris, an early attempt at Tobacco Litigation. Next up is Leary v Federal Fiber Mills.

Broussard was the hypester for the 3 ventures and he raised money from select members of the general public to turn these ideas into bricks and mortar reality.

...

I strongly suspect the girls have lots of really pissed off former investors around the NOLA area which may explain why Leary and Perret both want Canadian citizenship these days.

Suggests plaintiffs have fled Louisiana due to criminal and/or unethical activities there.

"Perret left his momma in good hands though as Danny Abel looked after her as a surrogate son after ol' Vaughn split years ago. "

Invasion of privacy; aspersion of Mr. Perret's character.

The only open question and it really isn't open in my mind's eye is why Broussard was hyping these schemes for a bunch of gay men.

Invasion of privacy; targeting gays.

Post links the plaintiffs to litigation they had nothing to do with.

And sue they did but the gun suit fell apart as Gauthier was the glue that held Castano together and it **unwound with untimely death in late 2001**. That in turn cast lawyers like Abel adrift with one commonality being the girls sticking together. Abel was a good lawyer but his heart lay elsewhere in the world of cooking and hospitality and it is there he intersected with Charles Leary and Vaughn Perret as he funded their failed business ventures to his own financial detriment. We'll be rolling that out in part 2 of this series.

Matt Labash's work from 1998 still survives the test of time via wingnut think tanks like the Heartland Foundation, which dumb ass politicians like Tom Capella turn to for their talking points and it is **there among many places that Labash's story lives on in internet perpetuity**. Folks the whole piece is well worth the read as part of the social network that would eventually lead us to Trout Point Lodge, Charles Leary and Vaughn Perret comes into sharper focus as we'll also revisit Paulsen v State Farm and the notion of "Buy a reporter, get a good story".

Repeats them of plaintiffs purchasing good press from mainstream media, implying that they must buy positive publicity.

For his pleasure Mr Brown is now being sued by Abel who is evidently once again out of money and trolling for a cheap shakedown. I would submit Abel is writing checks he is not prepared to cash but what would I know.

With the use of tags, Handshoe suggest plaintiffs are involved in a criminal shake down scheme, which forms a pattern of conduct.

Now this blog was founded as a consumer driven resource highlighting Katrina cases. Despite the free publicity Carl Finley and the rest of the girls are not who I think as Katrina warriors. They simply took too many shortcuts in their litigation and in the case involving famous local media personality Eric Paulsen took ethical liberties that would make the Oxford based insurance defense bar blush and that folks is saying something. And a fair read of the above tells us something else about how the girls operate because without being compelled to say anything Gates claims Eric Paulsen's house as his own well before it evidently became more convenient **to file suit against State Farm using Paulsen's name**. Such shape shifting is common for the girls as the reported ownership of the Trout Point Lodge and Dairy Farm has also magically morphed through time as we'll explore in a later post.

Defendant repeats defamatory use of tags. Implies attorney plaintiff Perret's use of legal shortcuts and ethical violations in a litigation he had nothing to do with. Implies nefarious business activities and fraud involving Trout Point Lodge.

Coming up in Part 3 Slabbed explores the lawsuit Aaron Broussard has filed against Outgunned author Peter Brown as I continue to meticulously lay down the trail of scams and political corruption that leads to Nova Scotia and Trout Point Lodge.

The problem with lying is keeping all of them straight. A Jefferson Parish Political Corruption / Trout Point Lodge Scandal Update Part 3

AUGUST 24, 2011

tags: Aaron Broussard, Carl Finley, Charles Leary, Danny Abel, Eric Paulsen, Jefferson Parish Political Corruption Scandal, La Ferme D'Acadie & Charles Leary v. The Atlantic Canada Opportunities, Shane D'Antoni, Shane D'Antoni aka Shane Gates, Shane Gates, Vaughn Perret

While Rainey focuses his articles on the curious Nova Scotia connection involving Broussard and the complaint to the Louisiana Ethics Commission, Rainey's articles contained some damning evidence of potential wrongdoing involving Leary and Perret in Canada and it had nothing to do with Broussard per se. In fact I'd submit to this day neither Rich Rainey or his employer know real reason why Leary and Perret went postal on them after his story on Trout Point appeared in January, 2010 but that changes today. Our first stop is **the courts in Nova Scotia** and the suit against one of the girls business misadventures there, La Ferme D'Acadie by the Canadian Government through the Atlantic Canada Opportunities Agency.

The dispute was the crash and burn of the Nova Scotia boutique farm and rolling over some of the money into Trout Point. The ACOA wanted their money back because it is clear they feel the girls were less than honest in dealing with them and according to local lore so do the trade venders that originally did business with Team Trout Point.

The Defendant makes direct accusations of fraud and the bilking of local contractors and suppliers

Then they realize they made a mistake, they failed to register as the all important "limited" corporation that protects their assets, so they fixed that right away, dissolving this and registered Trout Point Lodge Ltd Dec 14, 1998, and this time they took off Abel's name, and just have Leary and Perret as partners, their address being 189 Trout Point Rd, East Kemptville. Now note that their address likely changed to Trout Point Road after 1998, likely in 2000 when the Lodge was built.

Total confusion of the facts. Defendant misrepresents public records to suit his storyline and innuendo.

21 At this point it is important to remember the allegation is that Broussard was making Parish venders rent his property up in Nova Scotia in a kicked up pay to play arrangement and indeed there is no evidence that Leary, Perret, Abel and the lodge were involved. That said it is also clear Broussard was not simply some guy from down the road as Leary tried to paint him to Rich Rainey. Broussard was the market maker for the girls and peddled those 2% investments to select individuals in Louisiana along with his legal sidekick Danny Abel.

So what is it that made Leary nervous about Rich Rainey's reporting? IMHO it is mainly the fact that Rainey reported additional 2% owners and folks that likely does not jive with what Leary has told the Canadian Courts in sworn testimony. Here is an excerpt from the now retracted Trout Point piece by Rich Rainey:

None of this is new ground here at Slabbed and in reality Rainey was 100% factually correct in his reporting. Now I am open to the possibility Rainey's employer is pusillanimous in the way they hung him out to dry but I also suspect Rainey and the gang had no clue as to Leary's testimony before a Canadian court.

But here is some new ground as events have compelled me to dig further into this whole Trout Point/Aaron Broussard/Paulsen v State Farm social network of gay men and politics. So I am 100% clear I am completely down with those of you in the Slabbed Nation living alternative lifestyles and really do not care what consenting adults do in their private lives

Now if I paid taxes in Nova Scotia I think I'd want an explanation and full accounting of the ownership of Trout Point Lodge and it's relationship to the failed venture La Ferme D'Acadie as it appears the shifting of assets and ownership could well indicate that

the ACOA was defrauded. To the extent Leary claimed discrimination in a Canadian court for being gay while freely marketing Trout Point as a Gay Owned Lodge in Kemptville Nova Scotia illustrates the dishonesty inherent to his dealings with the Nova Scotia court system.

For my part I intend to keep all my options open and that includes the possibility of an anti SLAPP counter suit. My reporting is well sourced and I have nothing to hide. OTOH if we should ever get to depositions I'd love to know what Broussard got in exchange for peddling 2% ownership stakes in businesses he does not own.

All that said something tells me the courts in Nova Scotia will not take kindly to being abused in the way Leary, Abel and Perret have abused them. The girls hung 6 figures of bad debt on the Canadian taxpayers and strongly appear to have lied to the courts. This IMHO, is not a winning combo, especially after years of passing threats to anyone who crossed them.

I'll have part 4 ready in a few days.

Sop, got another question maybe for you to think about asking on a possible deposition. In part 4 above :

2 ".....but one of our new friends in Nova Scotia sums it up for us:" " ... June 25, 1998, again showing all 3 (Abel, Leary and Perret) as partners, but this time Abel's address is MT. HERMON, LOUISIANA."

Is the Mt. Hermon where Abel lived the same Mt. Hermon hick town where it is rumored all the Jefferson Parish trucks, equipment, pump operators and other personnel were evacuated to before Katrina struck? And if it is where did all these trucks, equipment and personnel stay? It seems like a small town like that would not have enough motel rooms or equipment storage areas to accommodate the mass numbers of personnel and equipment. Just a coincidence I guess that Abel lived in Mt. Hermon and that's where massive equipment and personnel were rumored to have been evacuated to. Maybe Dr. Maestri, emergency director who post Katrina got involuntarily vacated himself, could shed some light on this for the Slabbed Nation.

Of course Broussard did not personally order said evacuation to Mt. Hermon as per his deposition they all just left like programmed robots in accordance with the DOOMS DAY EVACUATION PLAN which they all had memorized for years.

The Plaintiff used to own an award-winning farm business in Mount Hermon, Louisiana. For the Defendant, conspiracies abound.

vonzipa PERMALINK

August 25, 2011 6:02 pm

There were no motel rooms and no equipment storage in Mt. Hermon, at least not used by your run-of-the-mill Jefferson Parish employees. The entire "Doomsday Plan" shelter and storage consisted of one school building and its adjacent parking lot. In fact, there

were well over one hundred "employees" and their equipment/vehicles that were turned away with no alternative plan on the very night the storm made landfall after getting explicit instructions from the administration to report there.

Evidently this little project is making news in Canada. Stay tuned folks.

Defendant refers to Frank magazine.

Yep and business at the ol' lodge evidently isn't doing well. Hey Jr check this out: Litigious American ex-pat Trout Point Lodge proprietors Charles Leary and Vaughn Perret are at it again, and now they have Louisiana blogger Doug Handshoe in their sights.

You know me, I can not tell a lie:

"Have I been screwing with them? Of course I have," Doug tells me via phone from Louisiana.

"I was prepared for this lawsuit. I was warned that I was going to be sued, and I consider this (lawsuit) a gift," he says, adding that he's re-posted much of the suit's text to his website.

The ballsy blogger says he's been all over the state searching for evidence of nefarious activities on the part of Chuck and Vaughn, and the suit is simply the culmination of his amateur gumshoe work.

"My blog is the search for the truth," Doug bleats. "This is a constitutional issue, and in this case, the Constitution and the First Amendment are on my side."

I hear there is more in the pipeline too. If it is true there is no such thing as bad publicity then the girls will be happy to see the latest issue of Frank Magazine.

Obviously the girls at Trout Point Lodge do not have a stellar business record folks from their failed Washington Parish Exotic Cheese Farm to the defunct Nova Scotia Dairy farm to the ill fated Cerro Coyote Hotel project, all of which were at least partially paid for with other people's money. After Aaron Broussard's fall from grace and the end of pay to play Nova Scotia style things just got plain worser for the girls at Trout Point who tried everything, from marketing the lodge as gay friendly to rolling out all the PR stops.

Without the ferry service from Portland Maine it simply isn't worth the very long trip overland to the lodge, which is stuck out in the middle of no where. And of course once you get there the hidden charges are a real bitch as this disappointed guest points out at Trip Advisor, one of the travel sites where the girls advertise heavily:

...

River Bend has some ownership questions but there is no doubt the girls were the interface with the guests in Nova Scotia. But it gets better because the pressure of being scrutinized by Slabbed is evidently showing. Late last week I spoke with a nice gentleman from New York who heads a large media company that for now will remain nameless. What he described to me indicated Team Trout Point has some sort of mental disorder that goes wayyyyyyy beyond my limited capabilities to diagnose them from here at the registered office in Mississippi. That said he was very nice and just yesterday shared his experiences with Chuckie and the gang over at Trip Advisor under the lede "Hire a lawyer":

States that plaintiffs have mental problems.

The real score is it appears Leary and his blowbuddy Vaughn Perret are so paranoid they're willing to piss off members of the media in order to maintain the illusion of editorial control about what is written about their business ventures, especially the scams and the ones that didn't work out.

As always Slabbed reports you decide and stay tuned because we'll have more on the girls at Trout Point and their nefarious business practices.

The entire blog post is well worth the read folks and frankly the thought of Leary driving around Nova Scotia in a Range Rover telling customers to fuck off after stiffing a multitude of local investors is literally the stuff that makes for a basher's dream as it looks more and more as if Aaron Broussard's market making for the girls business ventures was in reality extortion under the color of law. I'll leave that for the FBI and others to sort out.

You see when I spoke with Andrew Speller and Kirk Cheyfitz both asked why I didn't get more support from the media down here. In a way this is a simple story that had the twist of a controlling grifter in Vaughn Perret mixed into the middle of the narrative. Vaughn is a literal one trick pony in how he deals with people of making threats and more threats of legal action whenever the PR doesn't go his way. A great way to begin would be to link the Channel 4 story on the ethics complaint made against Aaron Broussard as reported back in January 2010 but I was a stinker to prove the extent to which the NOLA media is compromised on reporting in Jefferson Parish so we must go back on Twitter to August 18 where I teased the girls at Trout Point:

Knowing Charles Leary and/or Vaughn Perret have Eric Paulsen on speed dial I also **printed a copy for my records** as I was fairly certain WWL would "404" the story as soon as the girls bitched (**and they dutifully complied**) so it is there we begin with the story *Crime watchdog seeks ethics probe into Broussard business dealings*: (fair use claimed):

Defendant again suggests that Plaintiff manipulate the mainstream media. Defendant also states that Plaintiffs strong-armed WWL television into removing an Internet article from publication when they did no such thing.

Simple right? Evidently Rich Rainey began researching this matter and he found that the Nova Scotia property known as Trout Point had several local, politically connected owners but that didn't stop Perret from sending his bottom bitch Charles Leary out to mislead and threaten.

Charles Leary, managing director of Trout Point, said Broussard has no "ownership or management involvement with Trout Point Lodge, Limited." Corporate records in Canada do not list Broussard as an officer of Trout Point Lodge Limited.

Broussard, "does not and has never had any ownership or management involvement with Trout Point Lodge, Limited." The message went on to say Broussard owns a "vacation home on the same road."

Those assertions are bald face lies.

Defendant Handshoe again calls Plaintiff Leary a liar, suggest he is in possession of facts that would prove this, and ignores the retractions of a major daily newspaper.

I frankly never understood how a news organization with the cojones take on Garlandfill would run like scared children from grifting gay men in Nova Scotia but it is what it is folks. And the reason I say that Leary lied? Mainly because I have been talking to former employees whom I've granted anonymity so as to spare them the hassle of defending a frivolous SLAPP suit in Canada:

In answer to the question as to who handled the money for Aaron's property?
Definitely Trout Point.

Defendant Handshoe implies nefarious and criminal activities from the fact that Trout Point Lodge handled rental management of Mr. Broussard's cottage.

This makes sense and confirms a long-held suspicion that the girls were the fiscal agents for all the cabins owned by Louisianans close to the Lodge including Aaron Broussard. That said the Lodge's financial records would certainly contain evidence to either support the pay-to-Trout Point to play in Jefferson Parish allegations that are at the heart of this story. My chatty new friend didn't stop there though. You see the girls have left a trail of financial wreckage in Canada reportedly screwing over trade venders and others building the Lodge and that harebrained exotic cheese farm La Ferme D'Acadie where they **shafted the Atlantic Canada Opportunities Agency.**

So now that I'm sourced on the exact nature of the business relationship between the owners of Trout Point including Aaron's former council aid Danny Abel we next must explore exactly who owns Trout Point as all the cabins and the lodge are not under one umbrella. Luckily for us I made several friends in Canada and one of them was kind enough to run the entire area through a local database.

The next question we must ask ourselves is do these activities constitute money laundering because if an illegal act occurred Leary and his blowbuddy Perret along with Danny Abel have lots of explaining to do. Stay tuned as we have more on the mystery on the shores of the Tusket River.

I get the game now. The Pouty Trouty boys are successful con artists who scam banks and government lending agencies to give them money for businesses that do not exist. Then

they abuse the court system to viciously sue, slander and malign everyone who catches them in the act. They leave a trail of unpaid bills everywhere they go, the common thread being nobody can match up the existing business with the defunct business. That is why here in NS they have about 18 different corporate names floating around, most of these pulled by Joint Stocks for unpaid fees.

Now you are right, the TP had them and just as fast, let them go. They didn't even bother trying to link River bend, Kempt Wilderness Services and Trout Point Lodge as one and the same, owned by all parties mentioned here. And it fucking stinks the Globe and Mail gave them glowing press without doing a bit of research. You can't google Trout Point without tripping over this blog.

Until we as a society stand up and report these assholes and pester the proper authorities to do their due diligence, crime is always going to pay. I am going to write some letters and wake some key people up and see if we can't give the Pouty Trouty boys something to Pout about.

35 You nailed it Novelle. Well folks, what can I say except that Charles Leary evidently has no clue that his career filing frivolous lawsuits was all public record. Regarding the Goat lawsuit he was involved with in Louisiana **that we recently profiled** he told the folks at **Shelburne County Today** "I was mentioned in the claim without my knowledge."

Yeah Charlie and I have some ocean front property in Arizona to sell too.

~~He is evidently still sticking to his story he that he has never owned land with Aaron Broussard despite the fact that I listed a specific piece of property that Charles and Vaughn Perret own with Aaron Broussard.~~ Leary and Perret bought the land from Broussard and do business with him. The never owned land meme is pure wordsmithing designed to obscure the true nature of the girls business relationships with Broussard. Evidently when Charles was young he never got the "problem with telling lies" speech from his momma.

This is getting good folks. I highly recommend clicking over to the Shelburne County Today post on this topic as it appears the locals in Nova Scotia have become hip to the Mystery on the Shores of the Tusket River.

sop

Handshoe again accuses the plaintiffs of lying again, in fact of being serial liars, and asserts the plaintiffs owned land with Aaron Broussard in an attempt to destroy our character and credibility, to nest the plaintiffs in the Broussard scandal. Targets Nova Scotia.

Damn, I missed what the Trouty Pouty boys had to say on that blog post. I've been seeing Slabbed show up where I least expect it, pretty sure it was written on the bathroom wall at a popular pub all the media folks frequent here in Halifax. Yes, Steve Murphy from ATV news might just come a calling and invite the boys on his show to give them the opportunity to speak to the masses. Maybe the CBC, a taxpayer funded broadcaster, will take on the angle of how it is just plain wrong to take money from us tax payers to open up a cheese tourism business, and then close up said business with the loan outstanding. I hope the boys are practicing their best "no comment" cause I have a feeling the cameras are coming for them.

Homophobic rhetoric and allusion. Alleges criminal fraud on the part of the plaintiffs.

Handshoe identifies the location of the personal plaintiffs in Granada, Spain. The only way Handshoe could have known the plaintiffs whereabouts was the receipt of email IP address information from Timothy Gillespie. Stalking and intrusion into the seclusion of the plaintiffs. Conspiracy.

Unfortunately we have readers that do not enjoy the same constitutional protections that we do in the US. Canada, for instance is far behind us in this area with their landmark free speech case involving journalists coming at the tail end of 2009. And even then they do not have our **SLAPP protection** under the law. These people yearn to enjoy the sunshine as we do and in the case of Charles Leary and Vaughn Perret, Slabbed will be their beacon of hope. I say this because the post on Shelburne County Today covering the Trout Point scandal is now 404.

Covering Trout Point and the tactic of using the courts to silence critics in Canada has gained me a greater appreciation why so many companies that scam people are based there. While participating in occasional informal finance roundtable discussions several times a college professor of finance whose opinions I respect mentioned how much **Naked Short Selling** originates with certain unsavory Canadian broker dealers for example. And then there is insurance scammer **Kingsway Financial Services** which we have well covered here on Slabbed that is also well noted with the good folks at

RipOff Report as an accomplished travel/sweepstakes scammer that somehow manages to remain in business despite using a Nigerian business model in **Advance Fee Fraud**. And yet in spite of all this **they are still allowed to trade on the US financial markets though it appears they are finally on the verge of being delisted from the NYSE**. It is simply amazing in respects.

.... to our friends up north that want to tell their story of Trout Point Lodge will have both a place of refuge and hope.

Post Turtle I have an another email in my possession that the girls will be suing the Shelburne County Today and its owner Timothy Gillespie.

With each escalation the girls have drug previously innocent bystanders into the middle of their temper tantrum against Slabbed for getting to the bottom of their business relationships with Aaron Broussard in Canada such as prospective customer Novelle Ecosse who now well understands the Trout Point way of conducting business via deception on sites like Trip Advisor and sheer brute intimidation. I'll add to my knowledge neither Gillespie nor Harlow have ever posted to Slabbed.

I understand there will be more press coverage of this entire mess in Nova Scotia. The girls are their own worst enemy and they are too menopausal to see it.

sop

44 I promised you a post on this subject and today's as good a day as any. You see Leary wrote in his civil complaint against me they left Louisiana because of racism against homosexuals. Besides being patently false I'll add Leary stated to your courts that the reason ACOA was kicking his ass in court was because he was gay so I guess Nova Scotians are as bad as us southerners right?

I knew that by using the term "the girls" to describe the tight nit social network of gay men that includes the Trout Point guys I would piss some people off including Leary and his spouse Vaughn Perret. I figure my brothers and sisters in the local new media down here would get past it in time because it really is hard to stay pissed at me. I say this because I purposely satarized Leary, Perret and Abel by using terms like "bitches" a few times, Like we say down here "if the shoe fits...." Free Speech US style means on occasion things get ugly as does the search for the truth or in colloquial terms "keeping it real". This is way more of a response than I planned but I hope it better illuminates the thinking at Slabbed. To the extent the girls attempt to use their sexual orientation to advance their agenda it is fair game for discussion.

It might be time for you to revisit this story:

<http://dubyaadubya.wordpress.com/2010/02/26/who-is-watching-the-store/>

Question: what land holdings did Yarco Holdings have and were those ever affected by what SWSDA was doing?

Where did all the SWSDA money go?

45 Please take a look at Martin J. Pink, former Deputy Mayor and his work on the Public Works committee while SWSDA was active.

Please note he is now the agent for Kempt Wilderness Services out of the states. Remember teh Billys Hill Trail and the Tobeatic Wilderness hiking plan that SWSDA was pushing? Do you know who would have profited from that? Trout Point Lodge and Kempt Wilderness Services. So, now it just so happens that Kempt Wilderness Services has brought on Martin J. Pink as its agent??? The original agent Patricia Caldwell was with Pink's old firm as well. Apparently SWSDA has been folded up but Nova Scotians should not stop at asking what they were doing and where the money went.

Hey Timothy somehow it does not surprise me you are the goto guy on this story. I have found no evidence the Billy's Hill project ever got off the ground but if the money for the Development Authority was being shiphoned off into other larger boondoggles that may be the reason.

Our forefathers literally put their lives on the line to leave us the legacy of the First Amendment to the Constitution. To the extent miscreants from the US would shop their cases to Canada to circumvent that is beyond the pale.

I'd like to take this opportunity to tell everyone that our 3 friends from Canada and me are holding a few secrets and one of those is that Leary and Perret really fucked up big time trying to get revenge for the factual reporting here on Slabbed. The short of it is they gave me grounds to sue in US Federal District Court right here in Mississippi and after I consult with counsel next week, should I sue, it will not only be Trout Point Lodge, Leary,

Perret and Abel as defendants but also John Does 1-100 aka the silent owners of Trout Point Lodge for whom Leary, Perret and Abel serve in their role of strawmen. And unlike bullshit defamation judgments from Canada the girls won't have SPEECH to protect them.

Now the real riddle is what does this guy have to do with the Goat Farm lawsuit Charles Leary is mentioned so prominently in? (Leary has denied involvement in that lawsuit to the Canadian media despite the official court record here in Louisiana.) Perhaps an ex wife who partnered with Trout Point Owner Danny Abel to homecook the out of state plaintiff they attempted to fleece.

Defendant Handshoe again tries to connect the plaintiffs to scandals they are not involved in and with people they do not know.

Man the stories I've heard about Deonne whew! And that doesn't count the problems Deonne and her ex are having in Florida these days. Kinda mirrors the crash and burn now occurring on the shores of the Tusket River in Nova Scotia huh.

The wordsmithing of Leary in his quoted remarks is a thing of beauty as **Story Worldwide CEO Kirk Cheyfitz's review of his very shabby treatment by Leary (who denied being Leary)** is dismissed because he didn't stay at the Lodge.

For instance the story mentions the positive reviews on Trout Point without mentioning many of those were self authored by Leary and Perret. In fact since Kirk Cheyfitz wrote his review on his Trout Point experience **there has been another glowing review** written for Trip Advisor by what appears to be a PR shill from Nova Scotia (new account and singularity of subject matter are the keys here) and that would make sense given Trout Point's registration statement.

Finally, for those so interested there is a media source that you can depend upon for an unfiltered look at dishonest businesses and in fact this source is the model for Slabbed in the RipOff Report. In fact the good folks at the **RipOff Report have a page on Trout Point** that highlights the hidden charges and such that is well worth reading.

The folks at Automattic, Inc have been good to us as well, even learning to tune out Charles Leary of Trout Point infamy as a cub copywrite troll. The stories I plan to tell on Slabbed's behind the scenes adventures with Charlie, a most public figure that injected himself into the Aaron Broussard ethics investigation reporting literally leaves me giddy with anticipation.

Along those lines I am pleased to report that since I turned the girls on to the concept of the US SPEECH act they have lost their ardor to SLAPP Slabbed, even after I ran them on a 2 month service of process fools errand that cost them at least \$1K in Canadian court costs. Curiously the local Canadian press, which had me "bleating" about my first amendment rights as an American Citizen like I was a lamb headed for the chop shop have also lost their interest since the Canadian defamation scam is at an end thanks to SPEECH. The topic of the Canadian court system as a judicial hell hole for defamation, libel and slander is ripe for publicity and I plan on providing it.

Defendant looking for justifications for the defamation the day after he was served with

Notice, tags the plaintiffs with investment fraud, political corruption scandal, ethics investigation, ACOA

My archival post regarding the Cerro Coyote hotel in Costa Rica has generated more leads folks as more local investors in the project that had no clue Abel, Leary and Perret sold the hotel and whom received not a penny back on their investment have sent me bat signals and that does not count the inquiries from those who are still coming to grips with the fact their "friends" Danny Abel and Aaron Broussard fleeced them. So while the news is settling in please meet the new owners of the former Inn at Coyote Mountain:

states that the plaintiffs fleeced investors and tries riling others, invasion of privacy

The Trout Point investors are also shit out of luck as the Lodge is listed as a Nova Scotia "LP" whose owners are Perret and Leary. Louisiana is the only state or province in North America that allows the use of counter letters (like the Cerro Coyote stock purchase agreement) to evidence ownership in a business. Based on their history what chance does anyone here have of ever seeing a dime from what is now called Trout Point Lodge? Ed Muniz was quoted by Rich Rainey as saying he has never seen a penny on his investment. I have more coming Shark.

My reply referenced the fact the writer had previously inquired as to the identity of my sources, whom I'll again state I have promised anonymity due to the hostile reaction of Aaron and the girls to any line of inquiry into the current State Ethics Board investigation into a pay to play scheme involving the development at Trout Point, large parts of which were owned by Aaron

Broussard and certain politically connected parish contractors.

That hostile reaction generally involves Broussard business associates Charles Leary, Vaughn Perret and Danny Abel filing defamation lawsuits against any line of inquiry in a judicial hell hole of the variety that compelled the US Congress to unanimously pass the **SPEECH Act**. These suits are known as **SLAPP suits** and they do intimidate folks. They do not intimidate me though I'll add that while many of our judges may be corrupt at least they are not nutless pinheads like the Canadian counterparts, who essentially sell out to scammers to squelch legitimate lines of journalistic inquiry via a system designed to encourage the filing of SLAPP suits where Barristers aka lawyers make big money. To date they sued and intimidated the Times Picayune into silence, caused **Channel 4 to pull a factually correct report on the State Ethics Investigation from their website** and are currently suing Fox 8 in Nova Scotia along with yours truly.

Since I am not sharing my sources and my webhost, Automattic, does not honor court orders issued by pinhead Canadian judges against American Citizens, Perret and his wife Charles Leary are at a legal dead-end. And since they can't find out my sources, they can't intimidate them into silence as has been their MO since going to Nova Scotia. My own experience is people simply do not react well to bullies and Slabbed too has benefitted from that fact as my post yesterday calling for information on Trout Point and Cerro Coyote netted me another nice tip from Nova Scotia on folks Trout Point has done business with. So to set that up lets head back to the post where I named the property owners of the development known as Trout Point, specifically two of the lots:

...

You see while Leary and company were bamboozling the Picayune into retracting factually correct reporting (to this day the reporter has since been assigned to the **Wet Kiss beat**) I noticed that his relationship with **Aaron Broussard per his own moderated webpages conflicted** with the statements he was giving the T-P, which I'll note had previously written 2 glowing articles about Trout Point. But there is more to that and not just from my standpoint as an investigative blogger covering corruption in metro NOLA. You see following the cyber trail lead me to intersection of the **Billy Hills Trails and the Nova Scotia South West Shore Development Authority**, a quasi governmental economic development agency that currently has a problem with huge sums of money being missing. And of course the SWSDA leads us back to the Atlantic Canada Opportunities Agency, whose dealings with Leary, Abel and Perret we have covered in several posts. For that bit of early background our readers can click **here, here and here**. This post is a great place to learn about the related lawsuit between Leary and the ACOA. Those are not the only connections between Trout Point Lodge and the SWSDA as I'll explore in a future post.

At this point I'll disclose Leary and Perret evidently went postal when I disclosed that counter letters do not evidence ownership in Nova Scotia. This would not be the first time I have broken bad financial news on the internet and I hate to say this but I laughed hysterically at the latest nasty grams sent me by the girls and yes when I publish their affidavits everyone will understand why using the term "girls" to describe Leary and Perret is dead on accurate.

Stay tuned.

Spankr thank you for linking my post. There is so much more to this story on the Lodge. The owners have sued my blog and several other media outlets in New Orleans for factually reporting the connection of the Lodge and its owners to the largest corruption scandal to hit the metro area in literally a generation.

I am shielded from defamation judgments from Canada via the US SPEECH law so I will not back down in my reporting on the Lodge. Leary and his partners have also threatened other Canadian bloggers that picked up my reporting with SLAPP suits and unfortunately since they lack the free speech protections I enjoy under US law has successfully shut

them up.

Here are 2 links to my blog Slabbed which explain the connection of the lodge to what we call the Jefferson Parish Political Corruption Scandal.

In the case of Leary and Perret the word Girls fits to a T. I knew going in I'd take a hit or two for using it but it is what it is. Appreciate the friendly advice nonetheless.

Some of those names of the property owners at Trout Point have well documented connections to organized crime here in the US. From my standpoint fleshing all this out only gets better from here.

Folks, the walls must really be closing in on the girls methinks given the nasty grams and such they have been sending me of late. Well folks, **Rich Rainey of all people has the skinny on Karen Parker's plea and "factual basis"**, which contained the following tidbit:

Additionally, from approximately 2004 through 2010, Broussard received monies, totaling hundreds of thousands of dollars, that were characterized as, among other things, "retainers," "consulting fees" or "finder's fees" with various contractors and vendors, all of whom were doing business with Jefferson Parish during the period of time Broussard was the President of Jefferson Parish. Moreover, Broussard was a majority owner in a holding company which owned an investment property in Canada. Broussard received income from this Canadian property. This property was partially funded by individuals and/or entities who were contractors and/or vendors doing business with Jefferson Parish during the period of time Broussard was the Jefferson Parish President.

Folks all I can say is Leary and his wife Vaughn Perret, owners of the Trout Point Lodge in Nova Scotia and fiscal agents for Broussard's real estate holdings at the Trout Point development have actually threatened to do what I told them they had to do originally; namely if they wanted to sue me they had better come to the US. So girls, you've been living on Slabbed lately and talking lots of trash so this is my official answer to you and rest assured I have a complete series of posts coming that will explore both Karen Parker's latest revelations and soooo much more. ~ sop

84 In these past 6 weeks we've seen the heavily laden freight train finally leave the station and as that baby builds up speed it also builds up what an old stock basher like me would call "Mo". In the financial markets the Mo is self sustaining to a point and the same is true in criminal investigations such as the one into political corruption in metro NOLA. I've seen it up close before and it is apparent Aaron Broussard isn't ready for that dot of light headed for him growing larger all the while.

Along those same lines I think that overall we've passed out some very good advice as a community here on Slabbed and I am very proud of our body of work here overall and I say the word "our" because Slabbed is way more than just me. The internet has brought together a diverse group of people strung across multiple states and international borders here on Slabbed. What a trip it has been to this point. ☺

Getting back to that good advice thing I think I've given the girls some excellent advice since they first knocked on my door back on May 6, 2011. Lets put a circle around that date for now.

We all know they didn't listen and the rest is history. And because they didn't listen this is what they did to themselves: **video clips entitled "bullseye" and hollow point bullet through gelatin**

I'm personally tired of throwing away good advice so I'll offer no more to Danny Abel and his band of girly men. Those readers so disposed can leave their thoughts in comments.

Finally we are at T-1 folks. Bear with me while the I nail down the final factoids of this latest twist in the narrative as Slabbed heads north into the cold Nova Scotia winter. And yes we will be tackling Trident as well. ☺

Slabbed explores former Jefferson Parish President Aaron Broussard's business activities in Nova Scotia Part 1: In the deep south 'reality' is often a simple illusion.

And so it is in Canada too folks.

...

By now several of you know why this topic needs a full and public fleshing out and now I'll share it with the entire Slabbed Nation. In May of last year, the constitutional and due process rights of 2 Slabbed commenters,

85 Unslabbed and Telemachus, were trampled in a Nova Scotia courtroom via a court order that was obtained under specious circumstances. Slabbed New Media,

despite being well-known and publicly disclosed since May of 2010 was not notified of any of these events, which took place in the suit filed by Trout Point Lodge against Fox 8. My web host here on WordPress, Automattic did not release any confidential information in response to the odorous court order issued by Judge Pierre Muise of the Nova Scotia Supreme Court. For now lets circle that Muise surname.

Rather than re-write our exhaustive independent investigation into Broussard's business dealings at the Trout Point Developement near East Kempt Nova Scotia I think it is better to rearrange our coverage into chronological order. And this series will illustrate that despite the protestations of Trout Point Lodge proprietors Danny Abel, Charles Leary and Vaughn Perret to the contrary, they are inherently involved in Broussard's alleged use of a Canadian company to launder the proceeds of his illegal activities in Jefferson Parish and in fact they benefited from it. Leary and Perret in particular have repeatedly used archaic Canadian defamation laws coupled with judges possessive of questionable backgrounds to silence journalism in the public interest on their shithouse business dealings and therein lies the appeal of hiding ill-gotten gains in a defamation judicial hellhole for corrupt Louisiana politicians.

The story behind the story simply amazing but today we set it up by hopping into the wayback machine to the days that Abel, Leary and Perret first arrived in Canada and scammed the local economic development agency the ACOA from my 3 part series La ferme pue pire que la route putes un vagin: "The distinction between past, present, and future is only a stubbornly persistent illusion", which I have brought up from the archives today here on Slabbed. For those that follow later the links to those posts are : (Part 1, Part 2, Part 3)

January 22, 2012 7:01 pm Sop... you not only deserve Kudos, but a Journalistic Award for your catch at "TROUT POINT"....All of which begs the QUESTION: Is the Times-Picayune going to file pleadings to set aside the settlement entered into with "Trout Point" based upon Trout Point's fraudulent representations that they had no relationship with Aaron Broussard ? A relationship that we now know to be a fact, and would negate any of their nefarious claims for damages. It would appear that the law firm representing the Times-Picayune failed to perform due diligence. And it is this lack of due diligence by a number of LAW FIRMS associated with the "Jefferson Parish Scandals" (Phelps, Dunbar and Gaudry, Ranson) that is becoming increasingly suspect !!!

I personally don't know what Leary's beef is with my coverage, or that of the Times Picayune for that matter. And while it is true Broussard never has had any documented involvement with Trout Point LP that point is also meaningless.

So now the US Department of Justice has a Bill of Information saying Broussard deposited his ill gotten shakedown booty in Nova Scotia. IMHO Mssrs Leary, Abel and Perret have some 'splaining to do when the federal grand jury reconvenes.

This was done outside the campaign money system Courtslave which is what makes it different from standard Chris Roberts type of pay to play. If it had been just hitting people up for campaign cash there would have been no need to hide the involvement of Broussard and Abel behind Abel's strawgirls.

In part 1 of this series I covered the genesis of Trout Point development and the associated fleecing of the ACOA by our three amigos Danny Abel, Vaughn Perret and Charles Leary. The fallout was slow in developing though as certain employees at the ACOA that were involved with the La Ferme D'Acadie disaster actually died in the interim and the ACOA was not especially diligent in pursuing repayment of the tax money given to the 3 American partners. When the ACOA filed suit Trout Point did not contest it and a default judgment was entered. Later the default was set aside and the litigation began a tortuous path in the Canadian court system. It came to a head in 2008.

I highlighted the entire ACOA disaster in several posts but this one **has received the most attention** and for good reason as the lawsuits involving Leary, Abel and Perret and the ACOA heated back up and one of the major issues turned on exactly who owned La Ferme D'Acadie.

Lengthy post in which Handshoe makes numerous misstatements of fact, conflates issues, and misrepresents the court record. Trout Point Lodge was never a party to any lawsuit involving ACOA. Asserts fleecing of investors, again.

Anonmouse: I believe you answered your "Why" question in your last sentence, "... who putsINTO....goats."

Makes perfect sense to me except if Fast Eddie was UP to something in Nova Scotia I'm sure it was with a very young, UTTERLY bodacious blonde goat.

Imputes bestiality on the part of the plaintiffs.

Folks, regarding the defamation

case filed by Trout Point Lodge against

89 Fox 8. The girls, with the acquiescence of Fox 8, have obtained court orders from Judge Pierre Muisse to Automattic aka WordPress, Cox Communications and AT&T Wireless for information on the following Slabbed commenters:

- Telemachus
- Unslabbed
- Whitmergate

While they have described their relationship with disgraced Parish President Aaron Broussard to the Times Picayune in terms of Broussard being a casual acquaintance, according to Nova Scotia court records the girls describe him as a close friend. IMHO the entire court exercise in Nova Scotia has been to help Aaron Broussard identify those that were speaking out on his corrupt activities and silence them via fear and intimidation.

I am now able to roll out parts 3 and 4 of my series on Aaron Broussard's business activities in Nova Scotia including Broussard's use of his straw men at Trout Point Lodge to obtain personal data on those who posted about his dirty deeds here on Slabbed. At this point, it is unclear if Fox 8 has given away data on those that may have commented to Val Bracy's stories on the Fox 8 website, but clearly they were content to serve up commenters on other sites without flinching.
